1. Introduction

PawLink is a mobile pet breeding matchmaking platform that connects pet breeders with compatible breeding partners for their dogs and cats. The app also supports Shooters -- breeding handlers/facilitators who assist with the logistics of breeding arrangements.

Key Features

- Smart Matching -- Swipe-based interface with compatibility scores.
- AI-Powered Tools -- Breed identification, offspring prediction, OCR scanning.
- Breeding Contracts -- In-app contract creation and management.
- Secure Payments -- PayMongo with money pool escrow.
- Real-Time Chat -- Direct messaging with read receipts.
- Verification System -- Identity and document verification.
- Vaccination Tracking -- Health record management.

2. Getting Started

2.1 Installing the App

1. Download the PawLink APK from the distribution link or QR code.
2. On Android, enable "Install from unknown sources" in Settings > Security.
3. Open the APK file and tap Install.
4. Once installed, tap Open to launch PawLink.

Note: PawLink receives over-the-air (OTA) updates automatically.

2.2 Creating an Account

Tap Register on the login screen to begin the 4-step registration process:

Step 1 -- Account Setup

- Enter email address (valid and unique).
- Choose a username.
- Create a password: 8+ chars, uppercase, number, special character.

Step 2 -- Personal Information

- Enter first name and last name.
- Select birthdate (minimum age: 13).
- Choose sex (Male or Female).

Step 3 -- Address (Philippine format)

- Street Address, Barangay, City/Municipality, Province, Postal Code (4 digits).

Step 4 -- Role Selection

- Breeder -- Own pets, seeking breeding partners.
- Shooter -- Facilitate breeding arrangements.

Select at least one role (can select both). Tap Submit to create your account.

2.3 Logging In

1. Enter your email and password.
2. Tap Sign In.
3. You will be taken to the Home screen.

2.4 Forgot Password

Tap Forgot Password? on the login screen and follow instructions to reset via email.

3. Identity Verification

Before adding pets or sending match requests, you must verify your identity.

3.1 Verifying Your Identity

Navigate to Profile > My Pets > "+" button, or Settings > Verification Status.

Step 1 -- Government ID Verification (Required)

- Upload a photo of your government ID (camera or gallery).
- OCR auto-fills: Full Name, ID Number, Issuing Authority, Dates.
- Review and correct auto-filled info, then tap Next.

Step 2 -- Licensed Breeder Certificate (Optional)

- Upload breeder's license if you have one. OCR auto-fills details.
- Tap Skip if not applicable.

Step 3 -- Shooter Certificate (Optional)

- Upload shooter certification if applicable.
- Tap Skip if not applicable.

Tap Submit to send documents for review.
